Arbor Park Village is a community that symbolizes what can be accomplished when cooperation prevails. This Cleveland community is the culmination of the positive change that happens when federal, state, municipal and local government entities (*both Republican and Democrat*) work together with schools, churches, businesses, architects, builders and most importantly, area residents to impart positive change to breathe life back into the area.

Arbor Park was created from concepts recommended by area residents. It was through their insights, and careful planning that enable Arbor Park Village to offer:

- Award winning learning center
- A beautiful 3,700 square foot community center
- Conference room for resident meetings
- Central Town Park area with water feature
- Two children's playgrounds
- Adult courtyards with table and chairs
- Units designed specifically for the Handicap and Disabled
- Education Programs for youths, adults and families
- Recreational programs for youths, adults and families
